

# Logistics Modernization Team

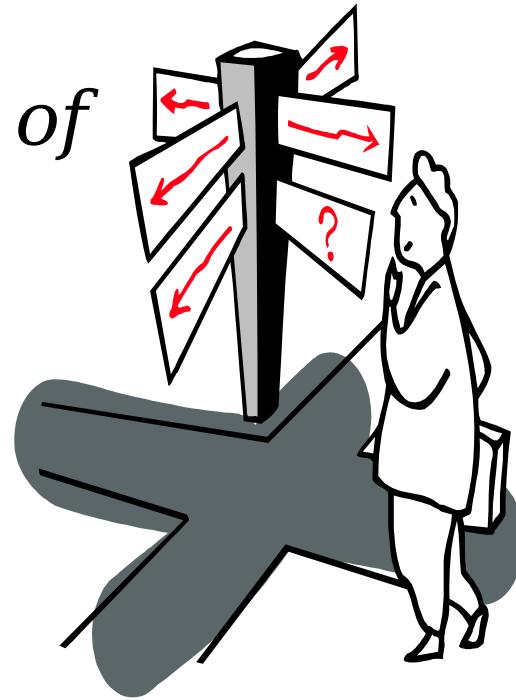

Program Overview Brief

# Who is this guy? And what is this all about?

*I knew FSMAO, I heard of LCAT, now.....LMT?*

*What direction is the organization going?*

# Mission Statement

**Higher Headquarters Mission Statement.** To analyze and facilitate the application of best operational practices in order to improve the effectiveness and efficiency of existing and emerging integrated logistics chain processes in support of MAGTF warfighting capabilities.

# Mission Statement

**LMTE Mission Statement.** Analyze and measure “as is” logistical processes IOT implement process improvement at the operational/tactical level. Facilitate and conduct internal and external Logistics Modernization training throughout the AOR in order to support the Warfighting effort.

# Vision

LMTE is to act as a field agent for the Logistics Policies and Vision Branch (LPV-4) of Headquarters Marine Corps. We must possess a thorough understanding of Logistics Modernization efforts in the Joint and Commercial Industry in addition to thoroughly understanding the tenants of the Logistics Operational Architecture (OA) within the Marine Corps. With this as a core competency, we will analyze, advise, recommend and act as change agents helping to shape the future of Marine Corps logistics.

# Organizational Structure

## **TACTICAL SECTION**

- Implement required performance measurements in accordance with DC I&L Metrics Plan.
- Institute Logistics Operational Architecture (OA) processes and GCSS-MC technology initiatives within the MAGTF and supporting establishments.
- Conduct analysis of existing logistics chain functions including procurement, inventory, end-to-end (E2E) distribution, and ground equipment maintenance in order to improve MAGTF and supporting establishment logistics support.

# Organizational Structure

## **OPERATIONAL SECTION**

- Analyze operational level logistics chain support from agencies such as Marine Corps Logistics Command (MARCORLOGCOM), and the Defense Logistics Agency (DLA) to initiate corrective actions and process change reengineering.
- Provide facilitation for logistics modernization oriented work groups and meetings.
- Provide logistics chain guidance and training to MAGTF staffs during operational planning.

# Organizational Structure

## **STRATEGIC SECTION**

- 
- Advise and coordinate strategic level logistics with MARFOR, MEF and Joint Staffs.
  - Provide logistics chain guidance during MAGTF OPLAN development.
  - Direct tactical and operational teams in support of logistics change management initiatives.

# Additional Responsibilities

- Maintain an effective communication plan ISO Change Management with the MEF.
- Provide transition assistance and sustainment training to the operating force and the supporting establishment MSC's.
- Act as the HQMC coordinator for policy waiver and clarification notices.
- Establish and maintain audit checklists for supply and maintenance functional areas used by MSC compliance agencies such as SMAT, CGI teams, etc.. Provide training and assistance to the MSC inspection teams as needed.

# East Team, Camp Johnson

**OIC** LtCol Seitz, S.S.

**SNCOIC** MGySgt Shockey, G.J.
